# Welcome everyone to the 6th Edition of the Woodbrook Word!

Welcome to the sixth edition of the Woodbrook Word! Firstly, let us introduce ourselves; our names are Keeley Nagle, Leah McDaid and Andrei Jereghi, we are the Co-Editors of this year's Woodbrook Word magazine. The students of TY1 have been working incredibly hard on writing and publishing these articles for the magazine for the past ten weeks. We have been observing the events that have been taking place in the school community and working together to document and celebrate them.

# Editors Notes

**Leah McDaid, Andrei Jereghi, Keeley Nagle**

We have included a range of recent achievements and events in Woodbrook. From the famous interview with the gold medalist Rían Dease to the 2024 Brother Tallon Cup. The jam-packed interview with Mr. Murphy on his retirement to the Halloween costume competition and the big Open Evening event. School sure has been busy!

As the famous quote goes, "The best way to predict your future is to create it" and that's what we are doing in Woodbrook – shaping and molding our future! We feel this quote represents the publication of the Woodbrook Word year after year – we are always looking to create something new!

The task of editing and publishing this year's 6th edition of the Woodbrook Word would not have been possible without the help of our fellow classmates in

TY1 that helped generate ideas and write and create innovative articles. We would also like to thank Ms. Doyle and Mr. Horgan for their support and dedication in helping bring the Woodbrook Word to life. We are incredibly grateful for the time and effort of all contributors- they truly believed in us and invested in our ideas!

Finally, we hope you thoroughly enjoy reading this magazine and we hope it gives you inspiration. We look forward to hearing your feedback, so if you see us in class or in the corridor, stop and let us know your thoughts! We hope you enjoy reading it as much as we enjoyed creating it!

Slan for now!

Leah, Keeley and Andrei

# Brother Tallon Cup 2024

In September of 2024, Sean Popovici and Ayse Kelleci were awarded the Brother Tallon Cup in Woodbrook College.

They received this prestigious cup as they both achieved the highest marks in their Leaving Certificate exams in the class of '24. Chairman, Pat Keating awarded Sean and Ayse with the Brother Tallon Cup to acknowledge and celebrate their hard work and amazing achievement. Their name will now be engraved on the cup. In addition to that, they received a plaque of their own from Principal Hurley, congratulating them for their great accomplishment.

Brother Tallon was an important figure in Woodbrook College. He taught in several secondary schools around the country before settling in St. Brendan's in 1985. He served as the last Christian Brother Principal, retiring in 1990. Although he had retired, Br. Tallon continued with his passion for education and nature. He always asked for recent and up-to-date information in the textbooks of Physics, Chemistry, and Mathematics so he could keep a sharp mind on these subjects. Even though he may not be with us anymore, the Board of Management of Woodbrook College, formerly St. Brendan's, commissioned the "Tallon Memorial Cup" and awarded it to the student with the best Leaving Certificate result for the year. It is fitting that his name should be associated with the achieving of excellence in education and the dedication that this takes for the individual involved.

# Discover, Join, Thrive: Clubs Day 2024

By Khrystyna Nasrallah and Andrei Jereghi

Hobbies are a large part of many people’s lives. They are uplifting and inspiring. Woodbrook College’s diverse after-school clubs give our students an exciting chance to learn more about what they are truly passionate about, share their interests with others and connect with like-minded people! It is an invaluable opportunity to socialize and meet new friends.

Our school offers a wide range of hobbies and clubs, from Lego building to sporting activities such as basketball, football and gym - they unite all kinds of students. The choice is so wide, it can almost be hard to pick!

The amazing Ms. Sinnott organizes Clubs Day every year. Clubs Day gives every student the opportunity to pick an activity/ club they want to join. The event is held in the PE hall with the help of the senior student leadership team.

# Closing the Classroom Door: Reflections from a Deputy Principal's Final Bell

by Ruth Davy & Mia Nicole Murray

We had the privilege of speaking with someone who has dedicated many years to shaping the lives of students and supporting the growth of both staff and community. Mr. Murphy, who has been an integral part of Woodbrook College for 26 years, is preparing to retire after a distinguished career in education. In this special interview, we reflect on Mr. Murphy's journey, the lessons learned, and the memories created over a career that has truly made a lasting impact.

**Mia:** Thank you for joining us, Mr. Murphy, and congratulations on reaching this incredible milestone. Let's begin by looking back at your time at Woodbrook College— What is your fondest memory here?

**Mr. Murphy:** I have lots of fond memories, just seeing people happy, seeing people with their Leaving Cert and Junior Cert results and knowing that they are going to go on and get the career they want.

**Mia:** Yes, like seeing people achieve?

**Mr. Murphy:** Seeing the people achieve and seeing people who doubted themselves going out with a big happy head out the door, that is what I want and good grades. That makes me happy.

**Ruth:** That is lovely! What do you think was your biggest challenge transition-

## ing from classroom teacher to Deputy Principal?

**Mr. Murphy:** I miss teaching big time, miss having a bit of a giggle in the classroom and doing the work with the students. I try to get around the corridors and meet people and have a bit of a giggle with them. I just miss the interaction big time in the classroom.

## **Mia: Which do you enjoy more? Teaching or Deputy Principal?**

**Mr. Murphy:** There are disadvantages to both; with teaching you get to close the door, and you keep everybody out and that is great. With Deputy Head I miss the teaching; I like certain parts of it. It is nice to get to present stuff to people like awards and different things. I miss having the classroom and a bit of the banter and building up relationships with 25 or 30 students.

## **Mia: What will you miss the most when you retire?**

**Mr. Murphy:** The drive! I like driving up because you get your head together for about 45 minutes. Also, just 700 people walking around every hour, there is no other job that you can say there are 700 people walking around and you get to see people and make sure they are all right. Whether you just give them a wink or just a thumbs up, just to make sure everybody is okay.

## **Ruth: What was your favorite part about coming to school every day?**

**Mr. Murphy:** Well, my wife would not write me a sick note \*laughs\*. The unpredictability of it. You just never know what is going to happen, sometimes it will put you in a bad mood but other times it would put you in a brilliant mood when you get good news, and you just see people and they are in better form than they were yesterday.

## **Mia: Yes, every day is different in Woodbrook College!**

# Closing the Classroom Door: Reflections from a Deputy Principal's Final Bell

**Mr. Murphy:** Every hour is different; in fact, every minute is different around here!

**Mia:** What is your favorite event in the school year?

**Mr. Murphy:** It changes but I love Christmas because everybody is in good humor and the banter is great around Christmas time. Any of the non-school uniform days are good craic too, because you can see people in Man United t shirts and tease them!!!

Is that a water gun?

**Mia:** And you get to see everyone's personality

**Mr. Murphy:** Absolutely, and yeah summer is good but it's sort of drawn out because of the exams. But Christmas time is lovely because of the Christmas show. That is my favourite.

**Ruth:** Sure, I thought you loved the sports day the most; remember, you stole my water gun!

**Mr. Murphy:** \*laughs\* me steal a water gun, never. I'd never do that!

**Mia:** Sports day was good.

**Mr. Murphy:** Sports day, yes sports day is very good, and again because people are in good form and usually the weather is good.

**Mia:** Everyone's enjoying themselves

**Mr. Murphy:** yeah, and it's different outside the classroom and outside school, which I miss as well, you know going on trips. I used to take some of the soccer teams, do the History and Heritage trips with the TYs and some other fieldwork trips with the Leaving Certs.

**Mia:** So the big question is...why do you call everyone a mushroom!?

**Mr. Murphy:** \*laughs\* I guess it's just something funny, and it's not offensive and again it's just a bit of banter. Trying to treat everyone equally and all the mushroom rooms are treated equally.

**Ruth:** Ha ha! Okay so, what is your plan for after you retire?

**Mr. Murphy:** I plan to travel to Cambodia and Laos and Thailand and Vietnam and to do a lot more walking in the hills, do my bees and play a bit of golf maybe and not be as stressed, just to try and enjoy myself.

**Mia:** Just like the mushroom question, what is the story behind the ties?

**Mr. Murphy:** Well, wearing a shirt and tie is boring. Isn't it most of the time so I said right if I wear a shirt and tie like I always have, but I always wore a short sleeve shirt and a funny tie most of the time, just to try and show my personality. That I'm not a boring old whatever you want to call it, just something different to show most students that even though I have a role as Deputy Head that I have another side as well that you can't see I suppose.

**Mia:** Do you have a special message for the students you are leaving behind?

**Mr. Murphy:** Strive to achieve, that's all the teachers want you to do even though you fall in or fall out with them, teachers are doing their job to try and make you achieve to what you capable of because we see huge potential and we want you to achieve what your capable of so that you can earn whatever you need to earn so that you can have a nice life, and sometimes there's a few bumps on the road but that's okay.

**Mia:** As you reflect on your time as Deputy Principal, what advice would you give to the next generation of school leaders?

**Mr. Murphy:** Have a sense of humor, you must have one, or you'll drive yourself rotten, try to laugh with someone and remain in touch with the students. It's very easy to just lock yourself in an office and close your door and not be in touch with anybody. You see me walking around because you might pick up somebody who hasn't had a good day, that's what it's all about, taking care of each other.

**Mia:** Thank you so much for sharing your insights and experiences with us today. On behalf of Woodbrook College, we wish you all the best in your retirement, and we hope you enjoy the well-deserved time ahead to relax and explore new passions. Your legacy will undoubtedly continue to inspire for many years to come.

**Mr. Murphy:** Thank you girls.

# Discover Your Future: Highlights from Our School Open Day

Woodbrook College's Open Evening was held on the 26th of September 2025. Our Open Evening gives Woodbrook the opportunity to showcase our amazing school to prospective students and their parents. The student leadership team gave guided tours of the interactive classrooms and activities. A Q&A session was also held in the Demo room along with HUB access. It was an informative and enjoyable evening for all, we look forward to meeting our new first years next year!

# EYP Conference

## Shaping the Future of European Policy

By Jason Tamayo

The Senior M.U.N. Club recently attended the Dublin Regional Session of the European Youth Parliament Ireland. Every year, the European Youth Parliament (EYP) Ireland, non-profit, and non-governmental organisation, hosts several conferences for youths. The EYP Network has 36 country committees, including EYP Ireland.

Their goal at EYP Ireland is to encourage young people in Ireland to become interested in European problems. Emphasising the values of respect and cooperation while empowering young people to think critically about the world and develop creative answers to global issues.

Together with more than 70 other students, they attended a conference that gave them the chance to network and demonstrate their excellent communication and research abilities. Committee topics varied from sustainable & affordable housing, fair pay, reducing drug consumptions, AI regulations, EU fair taxation, EU support for women, improving integration whilst ensuring asylum seekers' safety, and many more.

Students had the opportunity to interact with classmates from other County Dublin Secondary Schools on the first day, which helped them form teams and collaborate. As previously mentioned, students started studying their chosen topic halfway through the weekend and event; keep in mind that they needed to locate exact and reliable material, which helps them improve their research skills. When the tears come and it's time to part ways, students attended a massive conference with special guests on the final day, where they heard the president, vice president, and members of the national committee speak.

It was amazing because the chairpersons of each committee were from different EU nations, and the students had an excellent connection with

them. The passing of resolutions by Jason Tamayo and Angellica Samsin is a fantastic achievement; keep in mind that proposals had to be proposed or discussed before they could be placed to a vote. We would like to thank Mr. O'Donnell for this fantastic chance and for spending his weekend seeing us around Dublin. Remember, there's still time to join MUN!

# 5th Year Hike

By Dean Warner

On Thursday the 11th of October all 5th year students set out for a hike with our year head and tutors. Starting at Kilruddery, we knew it would be a long five hours. The weather was amazing, and it gave us a great opportunity to socialise and chat to one another.

It wasn't an easy hike, but it was very rewarding; especially with the views we had at the top of the mountain. We stopped for lunch in the walled garden in Belmont to recharge our batteries before making the trip back again. It is definitely something we'd like to do again.

# Wellbeing at Woodbrook

By Ms Connors

Woodbrook College is actively promoting wellbeing through a variety of initiatives. Each morning during registration, students take part in themed activities like Motivational Monday and Wellbeing Wednesday. First-year students are supported with activities to help them settle in, while second-year students focus on adjusting to the new expectations of their year. TY students have completed the Aware program, learning valuable skills to manage their emotions and improve their wellbeing, and LCA students will soon follow.

A new wellbeing noticeboard has been set up for both students and staff, and monthly lunchtime activities such as Culture Club, Smile Club, and Lifeskills offer additional support. With Stand Up Week and Wellbeing Week just around the corner, there are plenty of exciting events to look forward to!

We also support parents by offering various classes. Recently, we hosted a talk from Jigsaw on the role of "One Good Adult" in supporting young people's mental health. This is part of our ongoing effort to foster a supportive community for both students and their families.

## The Culture Club

By Ms Marschner

The Culture Club is a lunchtime activity open to all students. It takes place once a month as part of the Wellbeing Club. The aim of the club is to promote cultural awareness, make friends and, of course, have fun! The first meeting took place on Thursday 26th September and over 30 students enjoyed games and treats to celebrate European Day of Languages!

The second meeting was even more successful with a great turnout as we celebrated our schools cultural diversity with 20 different Language Taster Sessions run by our super talented, multilingual students. There was Irish for Beginners, Basic Chinese, Enough Romanian to get by as well as Polish, Ukrainian, Tagalog, Croatian, Ilocano, Italian, German, Farsi, French, Russian, Japanese, Turkish, Punjabi, Arabic, Russian, Greek and Malayalam. Well done to all who participated!

# A Day of Energy and Excitement at Our Annual Edmund Rice Fun Run

All students in Woodbrook College would like to extend their gratitude to the PE department for organizing such an enjoyable and memorable Fun Run in Shanaganagh Park on Friday, the 27th of October. The event was not only a fantastic way to promote physical fitness but also an excellent opportunity for students to come together, enjoy the outdoors, and foster a sense of community.

A special round of applause goes to Bobby More and Zara Behan, who emerged as the winners of the Edmund Rice Fun Run 2024. However, it's important to recognize that every participant contributed to the success of the event, and we commend all those who took part for their enthusiasm and effort. Well done to everyone who joined in the fun and made the day a resounding success! Your spirit and camaraderie were evident, and it made the Fun Run an unforgettable experience for all involved.

# Adventures and Learning in Causey Farm

By Danny O'Shea

On September 17th TY students eagerly embarked on their first overnight trip of the school year to Causey Farm, Co. Meath. The students took a coach to the farm, where they enjoyed a full day of activities. The students were all given a tour of the farm and had a chance to interact with the animals. Afterwards, they made their own pizzas for lunch, spent a fun hour on the lake pedal boating and participated in some team building activities. As their penultimate activity of the day, the students were towed in a cattle car to the local bog. There, students mustered the courage to bog-jump, and even some of the teachers joined in! Finally, for their final activity on the farm the students were given an exclusive look at the farm's haunted house experience, which was fun for all!

After the day's exciting activities, the TY students made their way to Drewstown House, where they would be spending the night. Here, the students relaxed after a very mucky day on the farm! They had fun with the house's pool table and playground, before finally settling in for the night.

The following morning after breakfast, the students took the coach to return to the school. They made a quick pit stop in Blanchardstown Shopping Centre for some food and retail therapy, before finally arriving at the school at 1:30. Both the supervising teachers and students alike greatly enjoyed the trip, as it was a great bonding experience and a wonderful way to begin the school year for TYs!

# **ALL THINGS BATON TWIRLING!**

## **Our European Champion Rían Dease**

Over the summer, the very talented Rían Dease won a gold medal for baton twirling. Keeley Nagle and Millie Waters interviewed him on his incredible journey and achievement.

**Keeley:** Thank you for meeting with us today, Rian. We are very excited to learn all about baton twirling and your achievements. Can you explain to us what baton twirling is?

**Rían:** It is my pleasure to be talking to you today! Baton twirling is a sport that combines dance, strength and flexibility in several different events which include solos, pairs and teams. The main component is the use of these three skills while manipulating one, two or three batons.

**Millie:** That sounds difficult! At what age did you begin this sport?

**R:** I started baton when I was ten which is a later start than usual as most people generally start between the ages of four or five. This meant that I had to work really hard to catch up to people my age.

**K:** So, how many hours and days do you train a week?

**R:** I train four times a week which is ten hours in total. Twice a month I attend the national Ireland squad which all the selected athletes from the whole of Ireland come together to participate in an Ireland squad.

**M:** And how do you prepare for your competitions?

**R:** Leading up to competitions I prepare by doing extra training on top of the required hours. Before I compete, I ensure to have a clear mind and a positive attitude as this boosts my confidence and surround myself with the people that support me the most.

**K:** It sounds like you are very dedicated to the sport, who helped you get to this point of baton?

**R:** My club coaches from Greystones baton twirlers have taught me everything I know and have helped me achieve things I never imagined I would achieve. But I wouldn't be anywhere without the support of my parents.

**M: It sounds like you have an amazing support network around you. Who inspires you the most?**

**R:** The person that inspires me the most in the world of baton is the European champion of 2023 Anna Zafra from Spain. I really connect with her style of twirling, and I aspire to be like her. But the person close to me that inspires me the most is my big sister who made this sport known to me.

**K: Is it time demanding? How many competitions do you attend a year?**

**R:** I attend six home competitions all around Ireland. These competitions lead up to the international competitions in the summer. The best from each section is selected to compete in the annual world and European competitions. I have been selected to represent Ireland for the past four years and I am hoping to do the same this year.

**M: What has been your fondest memory of baton so far?**

**R:** My fondest memory of my baton experience so far is competing with my pair partner Millie at the world championships in Sweden.

**K: What was your experience winning your medals?**

**R:** I have won three medals at European Championship level but my most recent is my gold medal in my solo. This was a proud achievement for me but also a relief because I entered the final round in 1st place and knew I had to keep the title.

**M: What are your goals to achieve this season?**

**R:** My goal for this season is to place high as I have entered a higher level which is called level A. I can't wait to see what this season entails, and I can't wait to do it with all my friends

**M&K: Thank you for chatting with us today, you have achieved so much in this sport and have so much ahead of you, we wish you all the best in the future!**

# Gaelbhratach agus Tae agus Topaicí

By Ms Murphy

Gach Deardaoin ag am lóin buaileann daltaí agus múinteoirí le chéile i HEC2 chun páirt a ghlacadh i dtae agus topaicí. Is bealach iontach é tae agus topaicí deis a thabhairt dár ndaltaí an Ghaeilge a úsáid lasmuigh den seomra ranga. Glacann na daltaí páirt i gcluichí eagsúla cosúil le scrabble as gaeilge, tomhais cé atá ann, cartáí comhrá agus biongó. Táimid thar a bheith bródúil as na daltaí a fhreastalaíonn ar tae agus topaicí gach seachtain agus is léir go bhfágann gach duine HEC2 le miongháire ar a n-aghaidh. Freisin, d'fhoilsigh muid an chéad fhoireann Gaelbhratach i gColáiste Srutháin na Coille anuraidh agus i Mí Bealtaine bronnadh an chéad Gaelbhratach ar Choláiste Srutháin na Coille ag an bronnadh i Luimneach. Táimid go léir chomh bródúil as na daltaí ar fad ón gcoiste Gaelbhratach as an obair dhian atá déanta acu, agus táimid ag tnúth go mór le tuilleadh oibre a dheanamh I mbliana chun ár dteanga dhúchais a chur chun cinn timpeall na scoile. Tá ár bhfoireann Gaelbhratach gnóthach ag pleanáil imeachtaí don bhliain seo. Coinnigh súil amach do na himeachtaí atá le teacht agus idir an dhá linn bígí linn i HEC2 gach Deardaoin chun an Ghaeilge a spreagadh!!

# Woodbrook College

## An Edmund Rice School

By Mr Horgan

As we approached mid-term, our students delved into a meaningful lesson about our founder, Edmund Rice, organised by Ms Shiely. As part of the lesson, the Art Department curated a large, whole-school artwork. Together, all our students contributed to the Great Whirling Spiral of Edmund Rice, a symbol representing the creative journey we embark on as a community. Each student added their own unique colour to the spiral, which now proudly adorns our canteen. This vibrant display stands as a testament to our commitment to continuing Edmund Rice's legacy—proving that together, we can achieve great things.

At Woodbrook College, we embrace the mission of Edmund Rice schools, serving young people from diverse backgrounds and swiftly adapting to the evolving needs of our students and communities. Our educational approach is rooted in a holistic vision, encompassing five key elements:

- Nurturing faith, Christian spirituality, and Gospel-based values.
- Promoting partnership.
- Excelling in teaching and learning.
- Creating a caring school community.
- Inspiring transformational leadership.

Let us carry these values forward as we grow and learn together!

# History & Heritage

The History and Heritage program offers students a unique opportunity to connect with the past in an engaging and meaningful way. This initiative not only makes history more captivating but also deepens students' understanding of the local area.

Each week, two class groups embark on a field trip to a nearby location rich in historical significance. Upon arrival, students gather with their teacher, who shares insights about the site's history while the class takes notes. These excursions foster not only a love for history but also essential skills in responsibility and independence, as students are encouraged to research their destination beforehand, dress appropriately for the weather, and plan their travel routes.

Throughout the Transition Year, students have the chance to explore a variety of notable locations, including St. Stephen's Green, Bray Head, Bray Town Hall, the Oscar Wilde Statue, Merrion Square Park, the Garden of Remembrance, the National Botanic Gardens of Ireland, Chester Beatty Library, Casino Marino, Ballycorus Lead Mines, the Guinness Brewery, Christchurch Cathedral, Customs House, Sorrento Park, Killiney Hill, Dun Laoghaire, Shanganagh Park, the Little Sugarloaf, and Naylor's Cove. Each visit enriches their knowledge and appreciation of the history that surrounds them.

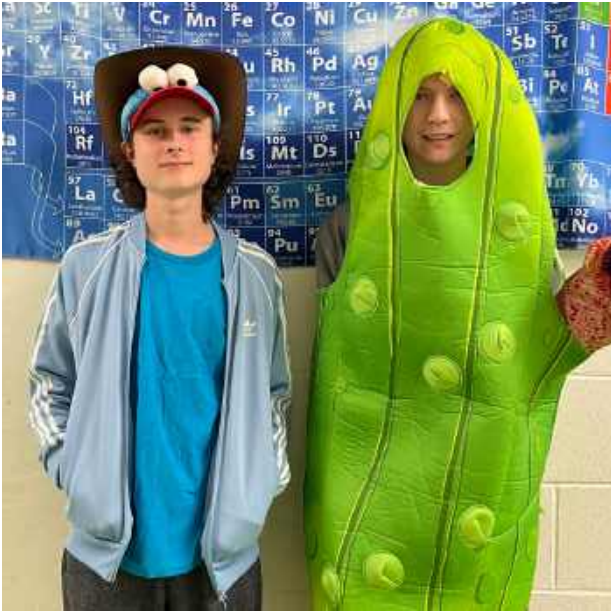

# Halloween Dress-Up Day

# Home Ec in the Spotlight

The Home Economics department at our school offers students a unique opportunity to develop practical skills for everyday life. From mastering culinary techniques in the kitchen to learning about budgeting, nutrition, and family dynamics, the department prepares students for real-world challenges. With hands-on lessons and a focus on creativity, students gain confidence in cooking, sewing, and home management, while fostering a sense of responsibility and independence. Whether it's baking delicious treats or designing a functional living space, the Home Ec department is where learning meets life skills!
